

**All Behavior Has a Function
Reinforcement Drives Behavior
We Will Reinforce the Behaviors You Want!**

Training Package

Mastering Loose Leash Walking

Who is This Training Package For

Anyone that wants to train their dog to walk on a loose leash and engage with them on cue instead of getting pulled from place to place

What You Will Learn

You will learn proven, highly effective techniques to get your dog to engage with you on walks and stop pulling on the leash. This will be accomplished using force-free, science-based positive reinforcement approaches that will transform your walks into an enjoyable experience for both you and your dog. When trained properly, your dog will learn to enthusiastically engage with you when out walking instead of pulling you from one spot to the next. Your walks become so much better together because you feel in complete control, and your dog is excited about interacting with you on cue instead of yanking at the leash.

- ✓ Learn specific positive reinforcement techniques and cues that will eliminate leash pulling
- ✓ These force-free techniques not only eliminate leash pulling but will dramatically increase your dog's engagement with you when out walking
- ✓ You will develop great satisfaction, and a newfound respect for your dog, because of how responsive they are to your cues when walking
- ✓ This training will enhance the bond between you and your dog in addition to eliminating leash pulling
