

**All Behavior Has a Function
Reinforcement Drives Behavior
We Will Reinforce the Behaviors You Want!**

Training Package

Calming Your Leash Reactive Dog

Who is This Training Package For

Anyone who wants their leash-reactive dog to feel calmer around dogs and other triggers, and to stay connected with them when out walking

What You Will Learn

You will learn proven, highly effective techniques to teach your dog to engage with you on walks instead of lunging and barking at triggers like other dogs and bikes. This will be accomplished using force-free, science-based positive reinforcement approaches. When trained properly, your dog's anxiety and reactivity towards triggers can be replaced with a positive emotional response, making your walks a more relaxed and enjoyable experience.

- ✓ Learn specific positive reinforcement techniques and cues that train your dog to interact with you instead of lunging and barking on leash
- ✓ Replace your dog's anxiety and reactivity with positive associations
- ✓ You will develop great satisfaction, and a newfound respect for your dog, because of how engaged they are with you in the presence of triggers
- ✓ This training will enhance the bond between you and your dog in addition to curbing leash reactivity

Pricing Details

\$300 for 3 x 1-hour sessions (initial consultation & 2 training sessions)
